OCTOBER 2026

FROM THE PRESIDENT

The heat of Summer is finally giving way to the pleasant days of Fall. Friends are returning and sharing tales of the summer while relaxing in the pools and hot tubs, or playing bingo, tennis, pickleball, shuffle board; facing the challenges of Pokeno, Mah Jongg, Poker, Cardo, Bridge, Bunco, Eightball, or other games we can enjoy in our little piece of happiness in Hacienda del Rio. Not to forget the joy of Karaoke each month. The club houses will be busy with parties, games, exercising, reading, pool balls clicking, Friday Night Live in Club Lago, a new group of singles forming, and our clubs awakening from the Summer heat anticipating a warm Fall and Winter ahead. Those of us in this community of 800 homes are fortunate to have found Hacienda and its many varied amenities that we enjoy. New homes now occupy the last spaces in the new addition. These will be filled with new residents, potentially new friends. Many are renters rather than homeowners seeking the peace and quiet of Hacienda. Hopefully they will purchase these homes in the future becoming dedicated homeowners.

Although a few people still ignore stop signs, speed by homes and walkers, pass bikers and golf carts, allow their pets to roam free, ignore the dirty business the pets leave, talk rudely in the pool, and ignore good manners, Hacienda still survives. Your HOA hopes all of you will continue to enjoy the retirement you envisioned when you decided to live here.

GARDEN CLUB

The October meeting of the Garden Club will be October 14th, 1:00 PM at Club Rio. The presentation will be given by Jenni and Debbie Pell owners of Lindley’s Garden Center. The topic is “Beyond the Bloom: Discover the Hidden Power of Native Plants”. Native plants do more than add beauty- they support pollinators, birds, and beneficial insects. Discover how thoughtfully selected natives can create an attractive, well-designed landscape while strengthening the natural world around us. Debbie Pell will bring a nice selection of native plants with her that will be available for purchase after the meeting, so bring cash. We look forward to seeing our returning snow birds and invite any interested neighbors to attend.

The Garden Club October trip will be to A Place In The Son Nursery, 600 S. Kepler Rd., Deland on Wednesday October 21st. Nursery staff will welcome our group and answer questions. Afterward, we can explore the nursery at our own pace and stroll through its beautifully landscaped four-acre grounds. There is a wide assortment of items for purchase if desired. We will enjoy lunch at the nursery’s on-site café following our visit, a farm-to-table atmosphere. Meet at Club Rio parking lot at 9:00 AM. Call or text Mary Lou Cannon at 585-734-7587 to sign up or for more information. Hope to see you there.

The Garden Club by definition is a fun-loving group of Hacienda Gardeners whose knowledge runs from Master Gardeners to novice with the main goal to learn and enjoy our gardens and our neighbors. We meet the 2nd Wednesday of the month to enjoy the camaraderie and learn all about gardens and sometimes a snack or two at Club Rio 1:00 PM. Come and see what our club has to offer.

HOME MAINTENANCE AND SAFETY TIPS

Microburst Wind Damage

So far this year there has been no hurricane activity in the Atlantic Ocean and it is beginning to look like a very quiet year for us. However, as some may have noticed, wind damage can still occur without a hurricane. Recently two homes had damage during a thunderstorm. In both cases the damage was to carport roofs. The two homes were not near each other and there was no other significant damage to homes surrounding them. The damage was likely caused by a microburst. A microburst is a downward column of cold air that can reach speeds of 100 MPH, or more, and when the downward column of air hits the ground, it blasts outward. They tend to be short lived and are very difficult to predict in advance. Many in the community have extra tie downs for their carport and they can help prevent or minimize wind damage. However, another way to help prevent damage is to examine the bolts that secure the carport posts to the concrete and the posts to the beams. Most that have been seen are corroded to some extent indicating that they are not stainless steel. Stainless steel bolts should be used for all carport post connections. The screws that hold the roof panels to beams can also become corroded over time. Many of these screws are sealed to prevent water leaks into the beams, but the sealant wears down over time and can expose the screws to the weather, allowing them to corrode. Corroded screws should be replaced and fresh sealant installed over them. Using tie downs during the summer thunderstorm season may interfere with everyday use of the carport and therefore some do not use them unless a hurricane is approaching. A solution may be to rethink the tie downs that you have to allow more free use of the carport while still providing extra protection from high winds whether it be from a hurricane or a microburst.
